EDUCATION

GITAM Institute of Technology and Management

August 2019 - May 2023

Bachelor's in Computer Science

Bangalore, Karnataka, India

• CGPA: 8.34/10

TECHNICAL SKILLS

Languages: Java, Javascript, HTML, CSS

Libraries: React JS, Springboot

Databases: MySQL

WORK EXPERIENCE

Virtusa May 2023 – August 2023

Intern - Java Full Stack Developer

Chennai, India

- * Developed **Hotel Management System** as part of the internship. GitHub
- * Technologies Used: Frontend React JS, HTML, Css | Backend Spring boot | DB MySql
- * Led a team of 8 developers and served as the Single Point of Contact (SPOC) between the manager and the team during the development of a comprehensive Hotel Management System.
- * Spearheaded the project during an internship, resulting in the successful launch of the system on GitHub.
- * Utilized advanced front-end technologies such as React JS, HTML, and CSS to design and implement a Hotel Booking Portal, ensuring a user-friendly and aesthetically pleasing interface.
- * Developed a robust backend system using the Spring Boot framework, which facilitated efficient and seamless integration between the front-end user interface and the database.
- * Implemented a MySQL database for effective storage, retrieval, and management of critical data, including hotel listings, user profiles, and booking information.

PROJECTS

Ecommerce Web Application | React JS, Springboot, MySQL | GitHub

- * Developed an Ecommerce Web Application leveraging the dynamic capabilities of React JS for a responsive and interactive front-end user experience.
- * Utilized Spring Boot for creating a powerful and efficient backend system, ensuring seamless data handling and application logic implementation.
- * Integrated MySQL for robust database management, enabling the secure storage and retrieval of product data, customer information, and transaction details.

Twitter Clone | React JS, Springboot, MySQL | GitHub

- * This is an end to end project utilizing two powerful and widely adopted libraries: React for the front-end and Spring Boot for the backend.
- * Successfully implemented dynamic themes in the web application, providing users with a visually appealing and customizable interface for enhanced user experience.
- * Demonstrated proficiency in implementing user authentication, offering both traditional form login and seamless Google login integration for added convenience and security.
- * Showcased creativity and technical expertise by enabling users to create tweets with diverse media types, including videos, images, text and emojis, contributing to a rich and engaging user experience.
- * Implemented a robust user search functionality, allowing users to easily discover and connect with others on the platform thereby enhancing the social networking experience

CERTIFICATIONS

* Oracle Certified Associate, Java SE 8 Programmer
